

Kumon Completer

Danielle Masagca

Danielle, age 16 and in Year 10, has completed the Kumon Math Programme at the Kumon Point Cook Education Centre. Danielle enrolled at Kumon when she was in Prep.

"I experienced many challenges through my Kumon journey, particularly during levels E where I found it difficult to grasp the lowest common denominator concept. Lots of practice and perseverance helped me understand the topics better and motivated me complete each level," she said.

Danielle was inspired by the testimonials of other Kumon Programme Completers and says that "Kumon has given me the confidence that I can accomplish anything if I believe in myself and put in the effort."

She felt a sense of comfort in knowing that she always had the support of Kumon staff. "To my Instructor, I would like to say thank you for pushing me to strive to achieve my goals by being disciplined and persevering through the challenges," she said.

Her advice to other Kumon students is: "Don't be afraid to make ambitious goals as the sky is the limit! When you are faced with challenges, just keep trying and don't give up. Practice makes Perfect!"

Comments from Point Cook's Instructor: Devani

Danielle is a quiet achiever, and is yet another testament to my belief that it is the most disciplined students that fair best at Kumon. She has always completed her Kumon homework consistently, even during her family holidays overseas. Danielle owes a lot of her success to her parents who have raised a disciplined, determined, hard-working and respectful young girl.

I feel fortunate to have had the opportunity to guide Danielle towards her goal to complete the Kumon Math programme. She is poised for success in her final years at school and certainly for a bright future. Well done Danielle! You are a wonderful role model to your sister and all our students at the Kumon Point Cook Education Centre!
